

# SAFETY INSTRUCTIONS

This document is part of the device

Adding biofuel during operation is not allowed.  
Do not add biofuel until the device has cooled down.

Not suitable for continuous operation.

Use specified fuel only.

Intended only for the rooms as indicated  
in the Operation Manual.

Carefully read the Operation Manual  
before installation and use.

Do not place anything  
on top of the device.

Avoid hot surfaces.

Do not place  
flammable objects nearby.

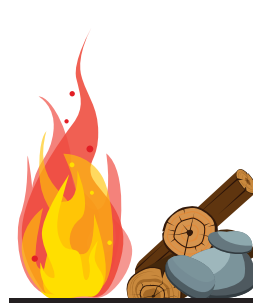

Keep out of reach  
of children.

## ATTENTION!

Always use interchangeable ceramic logs with decorative stones.

Building materials should never be used.

A maximum of four logs can be placed in the fireplace.

Never place ceramic logs or decorative stones  
in front of and directly on the burner as this may cause  
flame wrapping and firing the back wall of the product.

**The additives should always be placed after the burner.**
